

HappyBeingUs

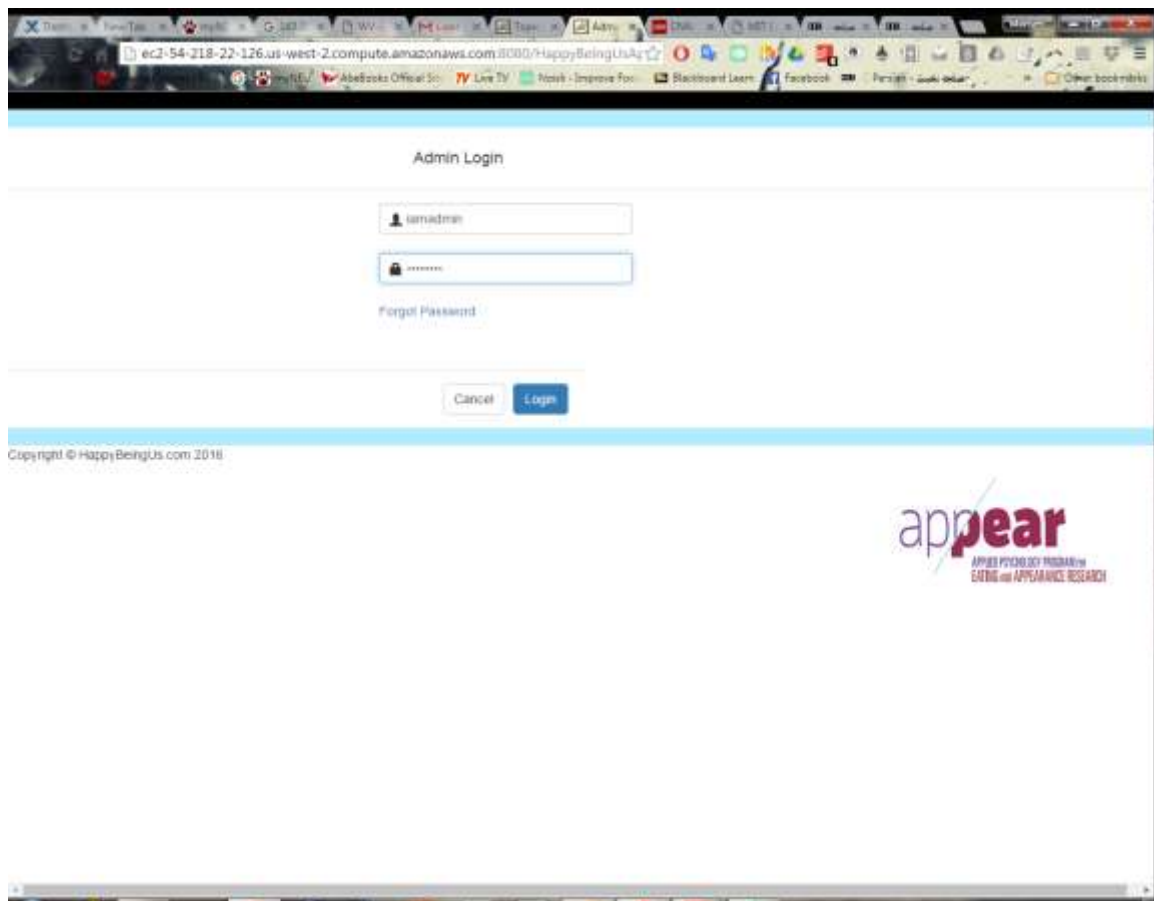

Admin Manual

04/15/2016

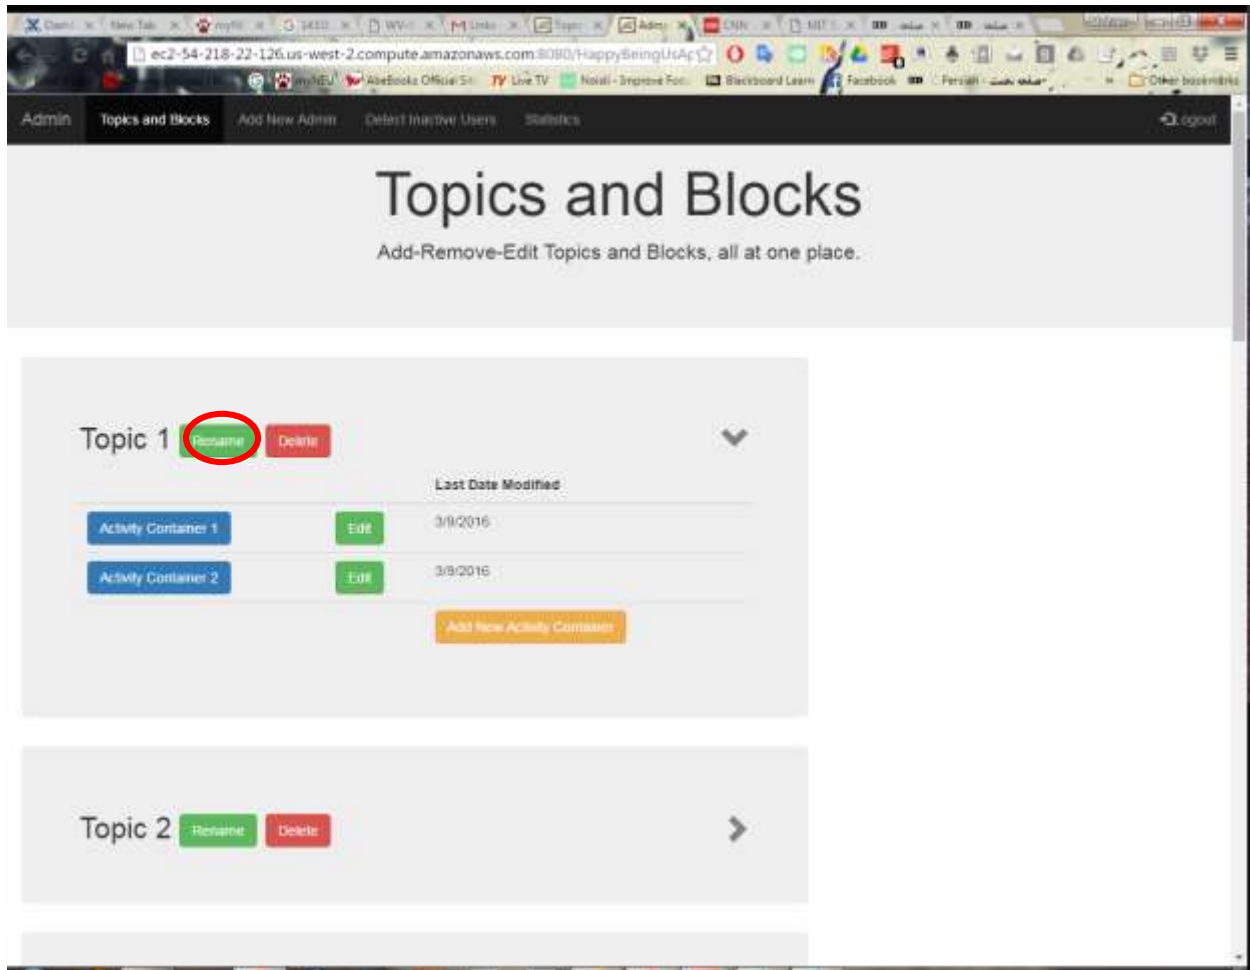

Go to the following address for HappyBeingUs Admin web.

<http://ec2-54-218-22-126.us-west-2.compute.amazonaws.com:8080/HappyBeingUsApp/AdminLogon.html>

Login page will appear.

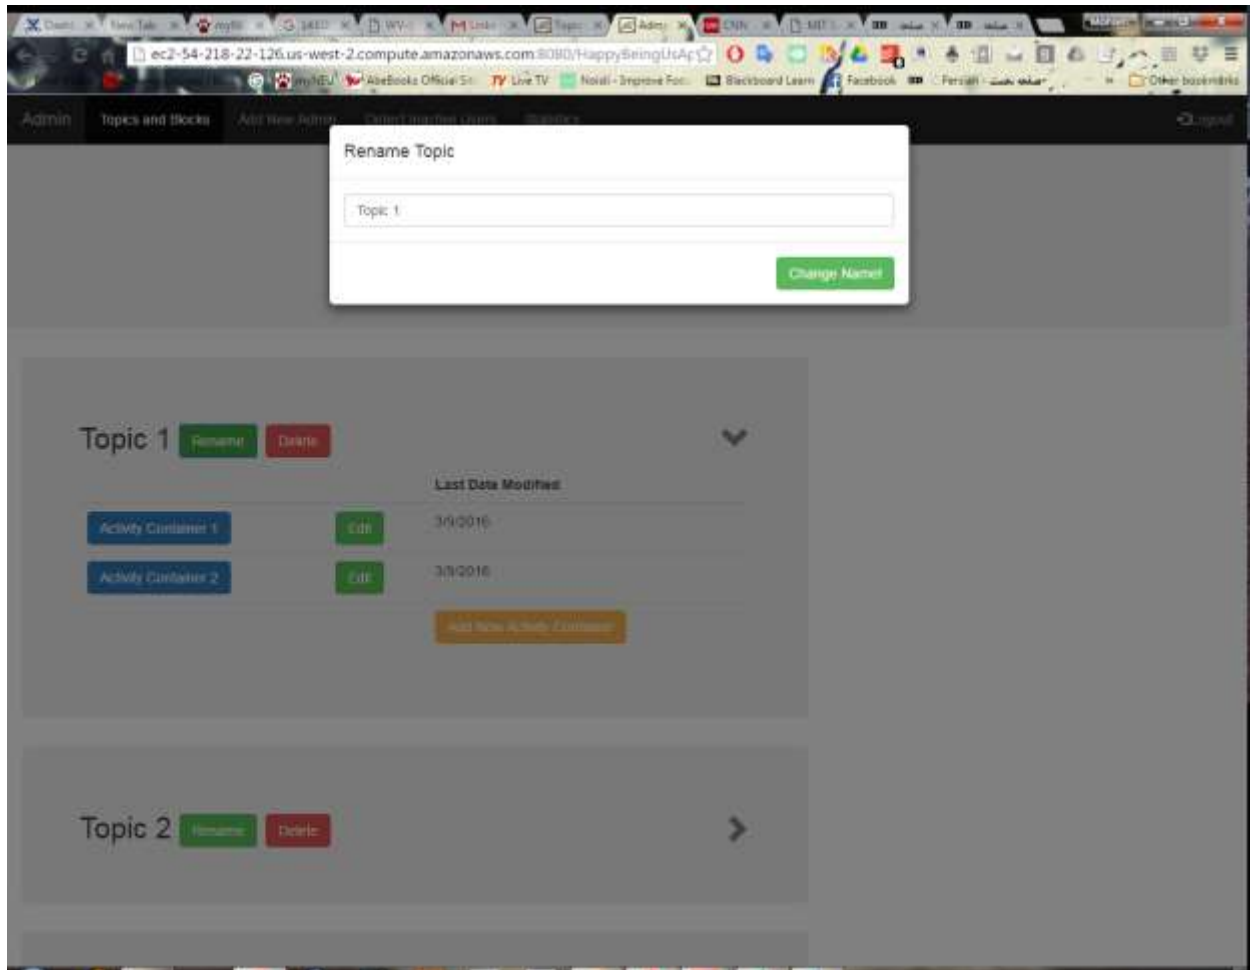

put your user name and password and click on **Login**.

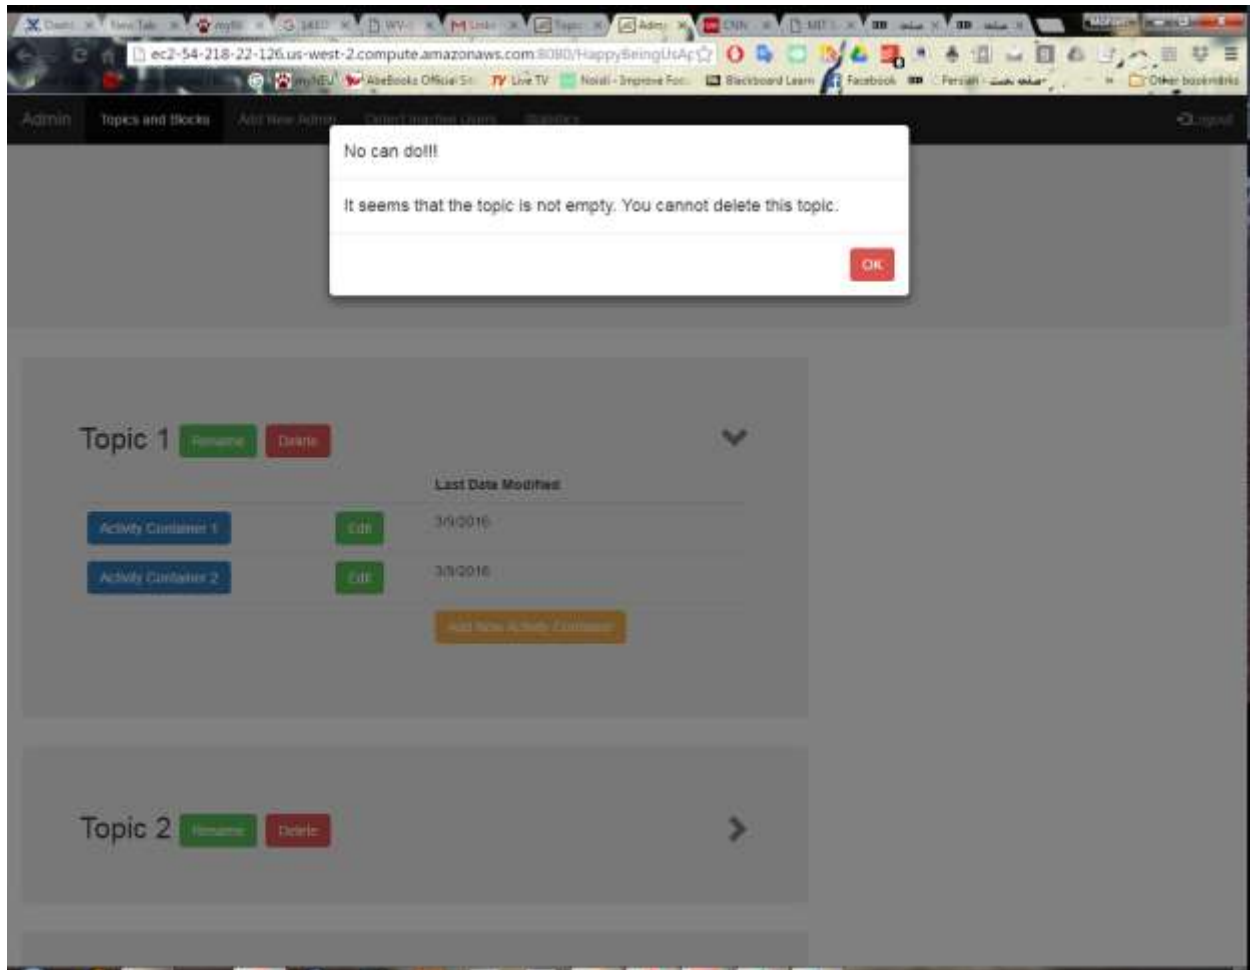

Topics pages appears. In this page the list of topics are shown. The admin is able to “rename”, “delete” and “create” a topic as well as “edit” or “delete” the Activity containers under each topic.

Here, click on “rename” to change the name of topic 1.

Put the new name , press change Name!

Note that you can not delete any topic that has Activity container inside. Instead, you need to remove all the activity containers inside the topic and then delete the topic.

Card 2

In flip question, admin should fill the followings:

- 1) the Question content.
- 2) For each card: a) Front Content (Text) b) Back Content (Text or Image uploaded from computer)

The screenshot shows a web browser window with the address bar displaying `ec2-54-218-22-126.us-west-2.compute.amazonaws.com:8080/HappyBeingUsAp`. The page has a dark header with "Admin Home" on the left and a "Logout" link on the right. Below the header is a large orange banner with the text "Create Activity" and "Create Activities here:". The main content area is white and contains a "Question Content:" section with a large text input field containing the text "Activity Container 1. Activity 2: The Actual Yes/No Question". Below this are two option input fields. The first option field is labeled "correct first option" and has a checked checkbox to its left. The second option field is labeled "second option" and has an unchecked checkbox to its left. Each option field has a "Remove" button below it. At the bottom of the form, there is an orange bar and two buttons: "Add more options." and "Add". Three green arrows are overlaid on the form: one points to the "correct first option" checkbox, another points to the "second option" checkbox, and a third points to the main question content text area.

In creating Yes/No Activity, the admin should fill the following informations:

- 1) Question content
- 2) First Option
- 3) Second Option

Then admin should specify which option is correct by clicking on the check options.

Admin Home Logout

Similar to the Video Activity, In Image activity upload an image, as well as put the Question content and the Answer content.

The screenshot shows a web browser window with a dark header bar containing the text "Admin Home" and a "Logout" link. Below the header is a large orange banner with the text "Create Activity" and "Create Activities here:". Underneath the banner, there is a dropdown menu labeled "Multiple Choice". Below the dropdown, there is a section titled "Question Content:" with a large text input field containing the placeholder text "Enter Question Contents Here:". Below this, there are three rows, each consisting of a checkbox, a text input field labeled "Content for this choice", and a "Remove" button. At the bottom of this section, there is an "Add more options" button. On the far right, there is an "Add" button. The bottom of the page is a solid orange bar.

And Lastly, for multiple choice questions, fill 1) the question content 2) the choices 3) select the correct options by the checkboxes.

You can add or remove the number of options!

Now lets go back to the Activity Container 1 page.

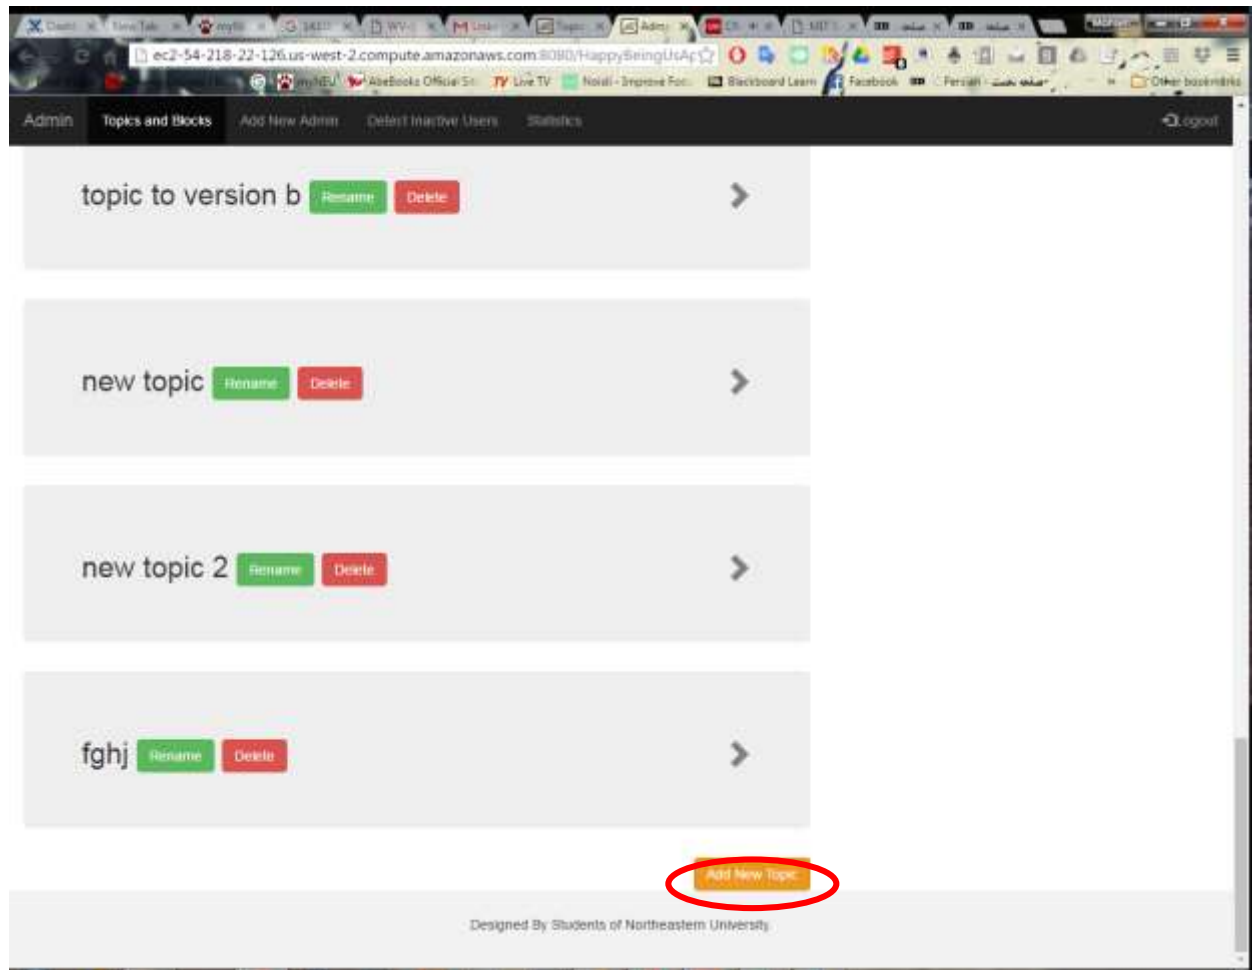

Activity Container 1 [Rename](#) [Delete](#)

Activity Container 1. Activity 1. Beginning Information	Edit	Delete	3/9/2016

[Add New Activity](#)

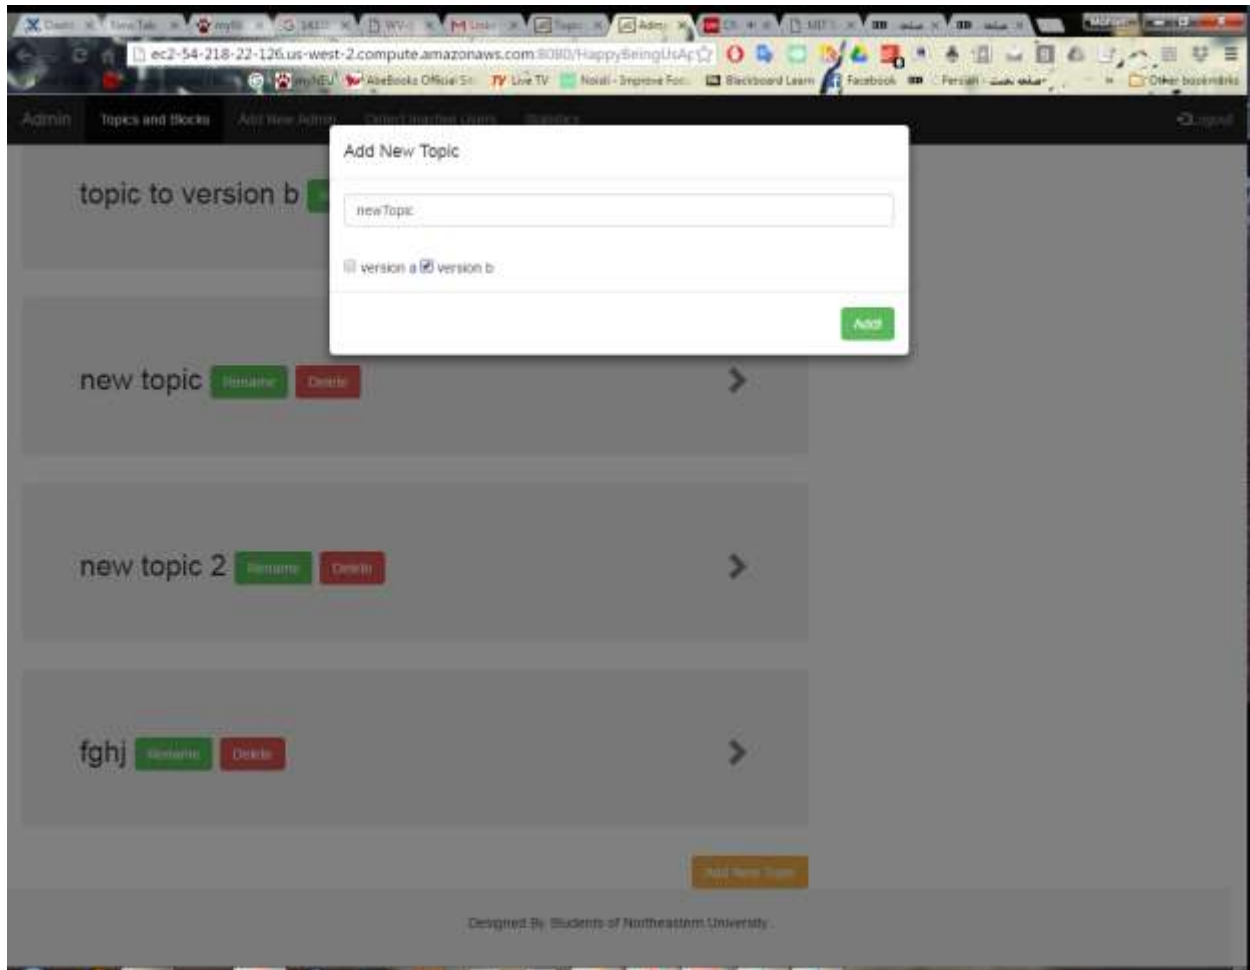

Designed By Students of Northeastern University

By clicking on **Edit** very similarly you can Edit the currently created activities.

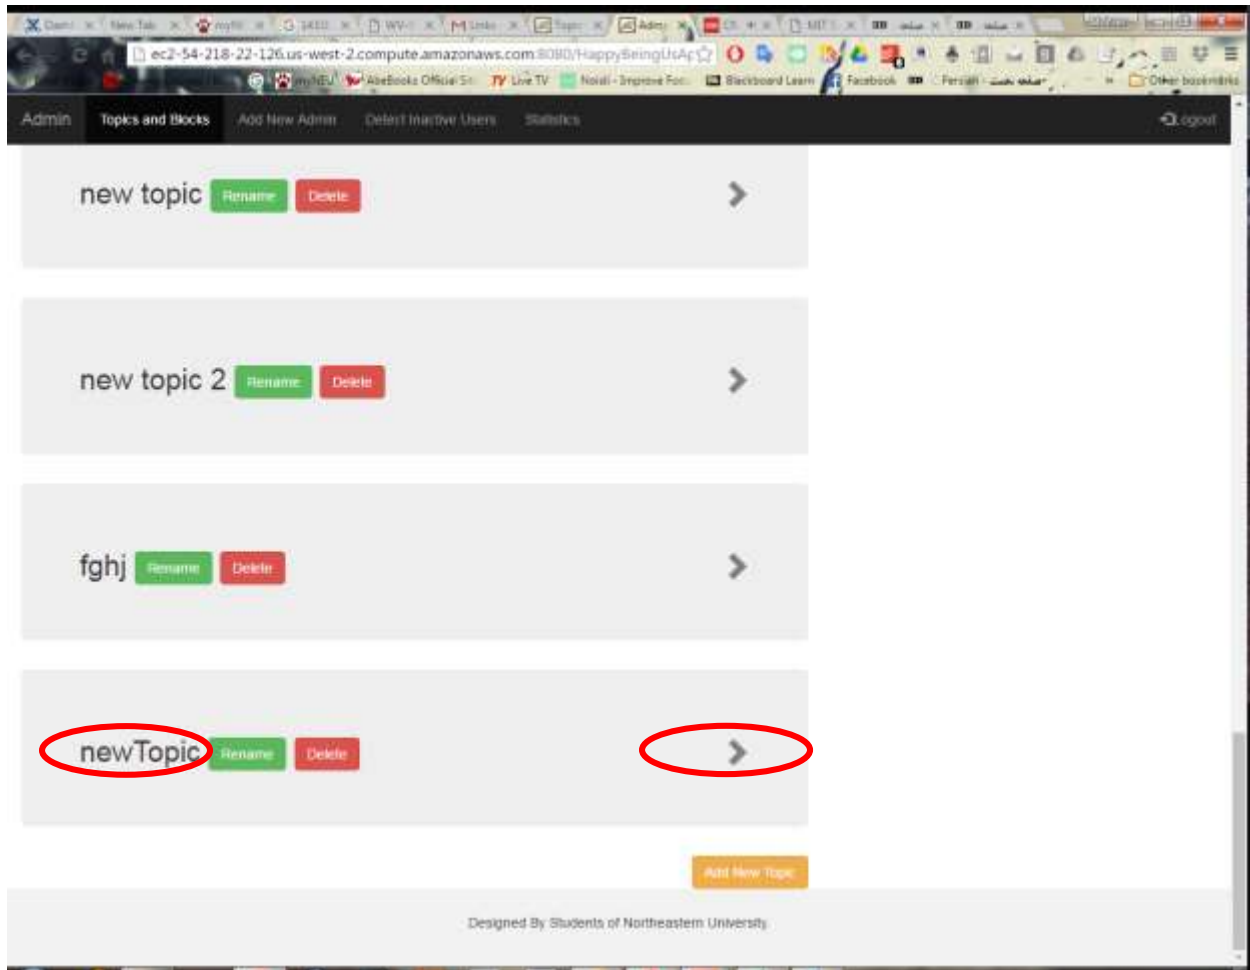

Now lets back to the Topic page(Home Page for admin)

We want to create a New Topic. Click on **"Add New Topic"**

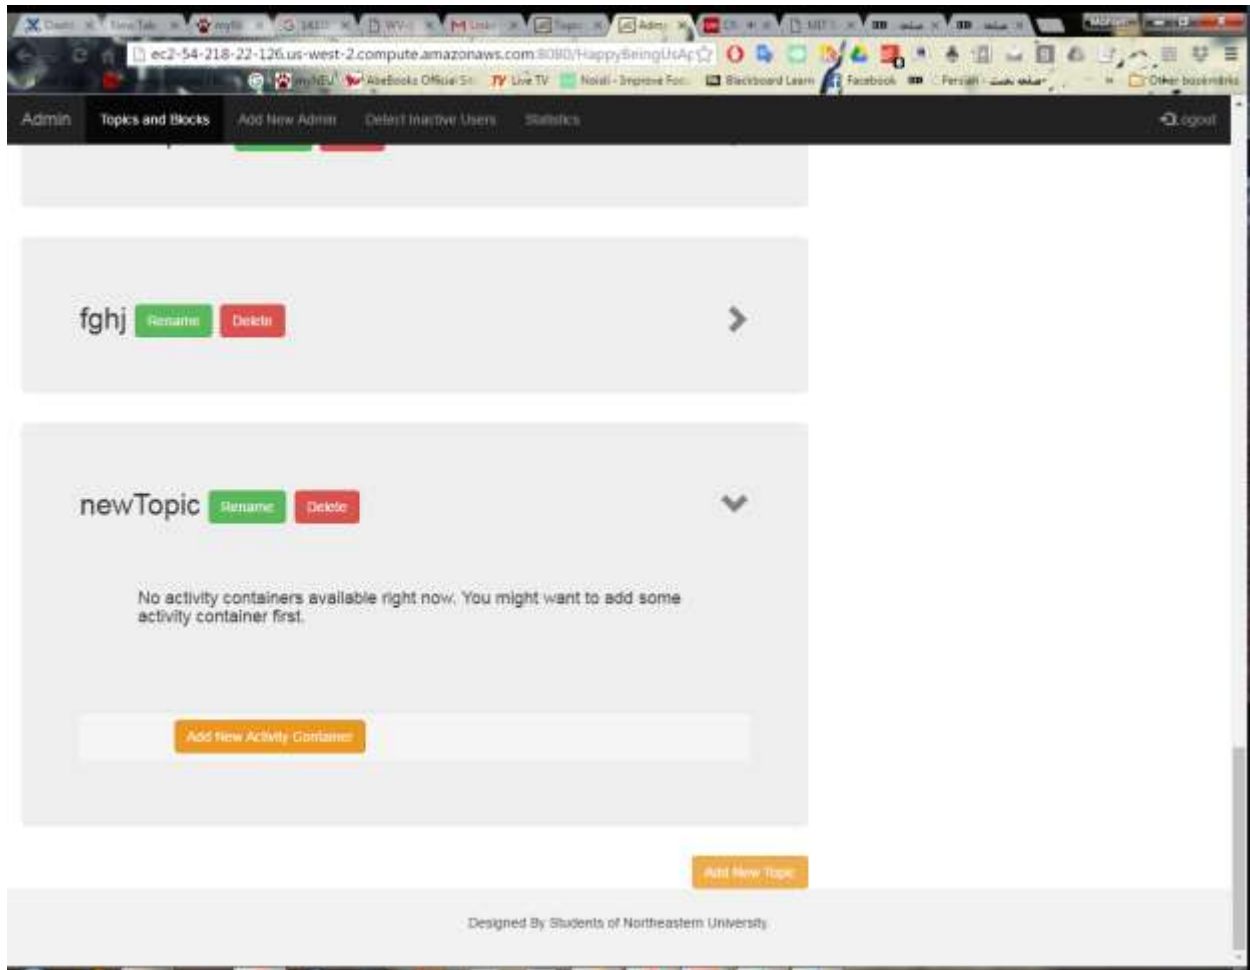

you put the name and the topic will be added. Also, it is important to specify the version that we want the topic to be assigned to. The version is used for users based on their performance in the Diagnostics Page.

The “newTopic” is added.

Click on dropdown button.

It says there is no activity container available in this topic. So we need to create New activities just like as explained before.
